Mines and Mining Stocks

EXPERTS IN THE

American Smelting Engineer and Corps of Assistants Sampling Property.

WILL MINE AT STOCKTON

STRONG COMPANY TO OPERATE RICH GROUND.

G. W. Wilton, the engineer who succeeded George E. Gunn as chief field expert of the American Smelting & Refining company a couple of months ago, began the sampling of the Mammoth Mining company's properties at Tintic Thursday morning. Mr. Wilson has a corps of half a dozen assistants and the work assigned to them will be performed as rapidly as possible. It has been the talk for some ime past that an option was out on the Mammoth and the popular impression was that it had been secured in the interests of Thomas F. Cole and his associates, who were reported to have tied up the Grand Central and Victoria mines at the same time.

Samuel McIntyre and other heavy interests in the Mammoth have persistently declared that no option had been given on the Mammoth's control and t was impossible to get Mr. McIntyre, who reached here from Nevada yesterday morning, to acknowledge that a deal for the property is yet in the realm of probability. He was inclined to be evasive, however. Mr. McIntyre pleaded that he had only just reached home and did not know positively how matters stood. Putting two and two together and then adding the rapid advance that Mammoth shares have been making during the past few days, there seems to be little doubt that the American company has at least asked Mr. McIntyre to name a price at which he would be willing to part with control of the property and allow the American company's engineers to sam-

the mine.
To make a guess on the price that Yankee C. the control would demand is no easy matter, but judging from what the mine has done in the past and the confidence displayed in its future pro-\$5 a share. One-half of the latter figtre has been talked around the streets for some little time past, but those who know Mr. McIntyre and his close associates in the company declare that the mine will never be sold for that

WILL MINE AT STOCKTON.

Strong Company Organizes to Operate Rich Mineral Territory.

One of the strongest mining com anies organized under the laws of this state for many a day was launched vesterday. It is the Southport Mincompany, modestly capitalized for \$500,000, with shares of the par value of \$1 each. With 100 acres of the most located mineral-bearing strong combination of mining operators who know their business and with a list of shareholders who have gone into the proposition to mine, the new organization starts off under auspices which guarantee the making of another bonanza producer in one of the state's most famous and reliable camps. J. R. Rand, who directs the affairs of the Rand Drill company, New York, is president; W. C. Alexander, manager of the Black Diamond company's Stockton properties, is vice president, and L. H. Farnsworth, eashier of the Walker bank, is treasurer. Charles H. Scheu, the man who presented the Honerine proposition to the Kimberley-Buhl-Snyder syndicate, William Beach. operator of Lafavette. Ind., being the other directors of the company.

For the rounding up of the properties thich constitute the corporation's holdings, for the perfecting of titles and arranging all the details that have been necessary to give the company what it was after, credit is due to Mr. Alexander, who has been quietly at work upon the proposition for the past two and one-half years. Operating in the district all the time and being in a position to acquaint himself with physical conditions at all the properties of the camp, it has not been nec essary for him to leave much to guess Much of the territory purchased

workings are still in fine ore. The Midget is another that has been de-veloped through a shaft in the bottom of which splendid ore is now exposed. The shafts on the Manzanillo, Pinto and Toledo claims, which belong to the company, are all in ore, while in one or two of the locations ore of high grade has been opened in doing the annual assessment work at no less than half a dozen places. The ground has all been drained by the Honerine

Day Opened With the Market Weak,

There was a suspicion of weakness in the mining stock market yesterday morning, but as the day wore away the undertone grew stronger and the flurry seemed to be at an end. The bears first took at shy at May Day by tossing out 1,000 shares at 25c. Following the regular called 3,000 shares were thrown overboard at the same price, but it at once became evident that orders were plenty at that figure and it began to move up again. After reaching 20½c it halted and closed fractionally under that price. Beck Tunne' was also hammered down. After opping at \$1.35 it was sold back to \$1.25, 1 rallying at the close of the day to \$1.33. Paly-Judge was dropped back to \$1.38, and Carisa to 30c. New York opened and closed at 37c. after touching 38c, while the balance of the list went through the day without damage worthy of note, while a few of the favorites registered small gains. small gains.

During the two regular and open board calls a total of 59,625 shares of stock.

BONDS LEAD-SILVER MINES.

W. J. Craig Gets Big Property Near

work. Much of the territory purchased by Mr. Alexander in the interests of the corporation that has just been formed is patented and that which is not has been so perfected in title that the patenting of the ground will be simply a matter of form and slight expenditure in meeting government requirements.

The company's holdings lie on the north side of the great Honerine drain tunnel and much of it is senarated from Honerine ground only by 200 feet. What Mr. Craig and his associates have undertaken to pay for the property has not been divulged, but the right is productive property, belonging to the Cyclone and Cygnet and that strip is productive property, belonging to the Cyclone and Cygnet companies. The Galena King property is flanked on the west and north sides and all of the east and west veins and a number of the cross fissures that have made a bonanza of the Galena King run through the southport company's domain.

Several locations at the south end of the Funcal range, eight miles from Leestock.

W. J. Craig has secured a bond on the Alpha group of eight patented claims and several locations at the south end of the Southpart tend only two miles from the Borax Smith Fullroad in Inyo country. California. The property is a silver-lead proposition and the ledge has been developed by five tunnels, ranging in length from 400 to over \$800 feet. What Mr. Craig and his associates have undertaken to pay for the property has not been divulged, but the property has been sampling the mine from the over \$800 feet. What Mr. Craig and his associates have undertaken to pay for the property has not been divulged, but the property has been sampling the mine from the over \$800 feet. What Mr. Craig and his associates have undertaken to pay for the property has not been divulged, but the property has been sampling the mine from the over \$800 feet. What Mr. Craig and his associates have undertaken to pay for the property has not been sampling the mine from the over \$150,000.

For the past two weeks or more M. H. Hennessy has be

Matters are pending in connection with the proposition the determination of which will decide what is to be done with the property, but of these Mr. Craig is not willing to talk at the present time.

EAGLE & BLUE BELL STRIKE.

New and Likely Looking Fissure Opened on 1,000-Foot Level.

than half a dozen places. The ground has all been drained by the Honerine tunnel to depths ranging from 650 to over 1,500 feet in depth and there is nothing for the company to do but organize its forces, open its territory as seems most advisable and go in mining. That is what the company has been organized for and that is what it is going to do and do it right.

gineers Getting Ground Ready at Boston Con. Millsite.

fter a day at the site of the new mill-plant of the Boston Consolidated com-ny and another day at the test mill ng operated at Bingham, A. J. Bettles, ef of the metallurgical and milling ex-t staff of Samuel Newhouse was at desk again vesterday. pert staff of Samuel Newhouse was at his desk again yesterday.

Mr. Bettles stated that an engineer with a corps of assistants was at work at the new millsite and within a day or two everything would be in readiness for the opening of the campaign of construction. At the testing mill everything is working out on lines that are altogether pleasing and there is now little doubt as to what methods will be employed at the large mill when the matter of its equipment is taken up and orders for the machinery are let.

DR. COOK'S SCIENTIFIC, CERTAIN AND COMPLETE CURE FOR

Weak, Nervous, Restless at Night, and Weak, Aching Back, Diseased Kidneys, Inflamed Prostate, Despondent, Lack of Energy, Ambition and Strength.

Poor Memory, Hollowed Eyes,

An endless number of men have one or more of the above symptoms and drag from day to day in despair of a prosperous, happy future, and well they may, for if neglected their health is sure to be wrecked by a complete loss of physical mental and sexual power.

My method completely and permanently revives manhood after eure-all remedies and quickoure specialists fall to even benefit.

My scientific, systematic course of treatment for weak. nervous, brokendown youths and men, who have, through folly, dissipation and excesses, unfitted themselves for work and the enjoyment of life is a system that has been tested many times over and proven entirely satisfactory in every case. It is totally different from the many sickening pills and tablets, and the stimulating, stomach-ruining drugs given by would-be specialists. My specific treatment for all given by would-be specialists. My specific treatment for all the symptoms indicating Failing Manhood is harmless though so effective as to remove them immediately. It is constitutional; therefore, by purifying and enriching the blood, strengthening the nervous system, nourishing the tissues, the patient becomes strong and healthy with all signs of trouble forever gone. The treatment is to the human system what the sap is to the tree—it buds energy, ambition and confidence that leaf into a prime, healthy, vigorous feeling of new life.

I treat and cure all such pelvic diseases as PILES, FISTULA, RUPTURE, YARICOCELE, HYDROCELE, BLOOD POISON, SKIN DISEASES, SORES, ULCERS, NERVOUS DECLINE, and diseases of the KIDNEYS, BLADDER AND PROSTATE. My method of treating these diseases has proven so successful that I guarantee a permanent cure in every case accepted, and contract by a written instrument to produce permanent and satisfactory results or refund money.

IMPORTANT .-- I will cure you for less money than you can be treated for by any other specialist in Sait Lake. You may have to come to me sooner or later in order to be properly cured; why not before you have lost your money in doctoring with cheap, unskilled specialists?

SATISFACTION IS GIVEN. Every patient is given a written guarantee to refund every dollar paid for services if they do not receive a complete, life-long cure and entire satisfaction, and I have made a deposit of \$500.00 in the bank to secure any contract that is not fulfilled. CONSULTATION FREE, CONFIDENTIAL AND INVITED. A personal, thorough and searching examination is required, though if inconvenient to call, write me a full description of your trouble. Office hours, 9 a. m. to 8 p. m., except Sundays, from 9 to 12:30. Address or call

WEAK MEN

PAY WHEN CURED. WEAK MEN

If you suffer from any of the weaknesses or diseases caused by ignorance.
excess or contagion YOU ARE THE
VERY PERSON WE WANT TO
TALK TO.

We have proven our skill in curing
CHRONIC diseases by publishing
many voluntary testimonials from
home people, giving names, pictures
and addresses.

WE CAN'T PUBLISH OUR CURES
IN PRIVATE DISEASES

Because it would betray confidence.
Hence we have to prove our skill in
this class of troubles in another way.
This is our plan:

PAY WHEN CURED.

We cure you first and then ask a
REASONABLE FEE when you are
cured. You can depend upon our word.
Thousands of patients have endorsed
us. NOW, WE WANT TO CURE
YOU with the distinct understanding
that we will not demand a FEE until
